The Complete Oracle SQL Bootcamp

“Changing Virtual Machine
Keyboard Input Settings”

Hi my friend;

First of all, welcome aboard & thank you for joining the big family!

As you already know, we've prepared a virtual machine that includes a completely running Oracle Database in it for you. So you can easily have a Oracle Database without installing into your local computer.

However, some of our students ask us, how can we change the keyboard settings of this machine?

In this document, we're explaining how you can change your virtual machine's keyboard settings step by step.

All you need to do is just to follow these 2 steps below:

Throughout the course, if you have any question, please do not hesitate to ask.

We'll be here to help you.

Best Regards,

The Team

Step 1:

Oracle VM VirtualBox window titled "Become a Certified SQL Developer Course [Running] - Oracle VM VirtualBox". The main window displays the Oracle SQL Developer interface for the "hr" schema.

The interface includes a menu bar (File, Machine, View, Input, Devices, Help) and a toolbar. The "System" menu is open, showing options like Authentication, Date & Time, Display, Keyboard, Language, Logical Volume Management, Login Screen, Network, Root Password, Security Level and Firewall, SELinux Management, Server Settings, Smart Card Manager, Soundcard Detection, System Log, System Monitor, Unbreakable Linux Network Configuration, and Users and Groups. The "Administration" menu is also open, showing options like Help, About GNOME, Lock Screen, Log Out oracle..., and Shut Down....

The main workspace displays a table with the following data:

	EMAIL	PHONE_NUMBER	HIRE_DATE	JOB_ID	SALARY	COMMISSION_PCT	MANAGER_ID	DEPARTMENT_ID		
1	NG	515.123.4567	17-JUN-87	AD_PRES	24000	(null)	(null)	90		
2	CHHAR	515.123.4568	21-SEP-89	AD_VP	17000	(null)	100	90		
3	HAAN	515.123.4569	13-JAN-93	AD_VP	17000	(null)	100	90		
4	WOLD	590.423.4567	03-JAN-90	IT_PROG	9000	(null)	102	60		
5	WST	590.423.4568	21-MAY-91	IT_PROG	6000	(null)	103	60		
6	STIN	590.423.4569	25-JUN-97	IT_PROG	4800	(null)	103	60		
7	106 Val11	Pataballa	VPATABAL	590.423.4560	05-FEB-98	IT_PROG	4800	(null)	103	60
8	107 Diana	Lorentz	DL0RENTZ	590.423.5567	07-FEB-99	IT_PROG	4200	(null)	103	60
9	108 Nancy	Greenberg	NGREENBE	515.124.4569	17-AUG-94	FI_MGR	12000	(null)	101	100

The bottom status bar shows the current line and column (Line 1 Column 24) and the active window (Oracle SQL Developer : hr).

The Windows taskbar at the bottom shows the Start button, a search bar, and several application icons. The system tray on the right shows the date and time (01:20 8.06.2017) and the location (TUR).

Step 2:

Now, you can choose any language that you want. That's it!

From now on, you can type your SQL queries in any language you prefer!

Enjoy!
